ABOUT US

OUR FIRST OFFICIAL YEAR OF WORK

Asociația Valori de Bine supports children and young people in the child protection system and from vulnerable backgrounds through **education, career guidance, health, childhood experiences** and steady relationships with trusted adults.

Our mission

> *We aim to help children build confidence, discover their abilities and access opportunities that can support them in becoming independent, responsible adults.*

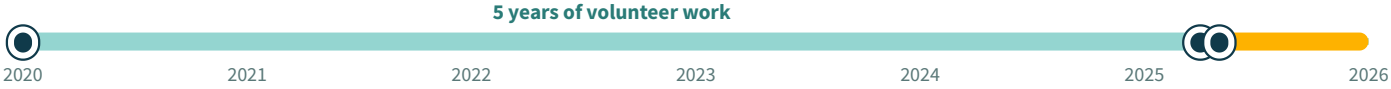

Our work starts from each child's real needs and aims for continuity, not just one-off help.

From initiative to association

The timeline is to scale: five years of volunteering came before the formal registration.

2020
During the pandemic, the first online homework-support sessions began for children with limited access to educational resources.

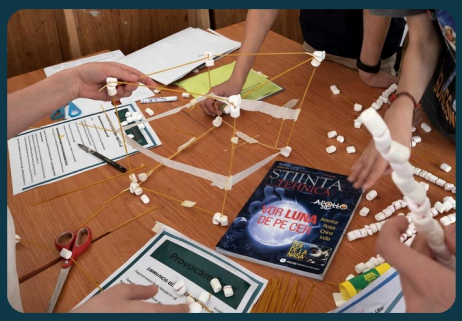

April 2025
The initiative officially becomes Asociația Valori de Bine, after five years of volunteer work.

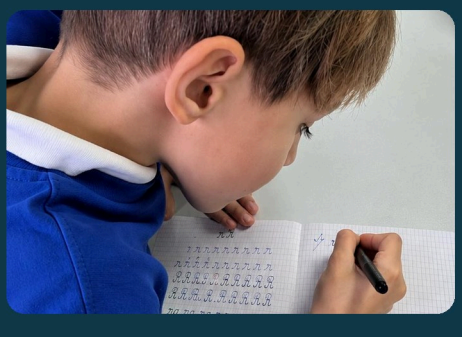

May 2025
Tax registration (tax ID 51801640) and entry in the National NGO Register, no. 1278/A/2025.

May–December
Programmes continued; groundwork for partnerships, funding and reporting.

TAX IDENTIFICATION NUMBER	NATIONAL NGO REGISTER	REGISTERED OFFICE

IMPACT

OUR WORK IN 2025

In our first months as a registered association, our work was carried mainly by **volunteers**, directly donated resources and collaborations built around the children's needs.

5
active programme areas

300+
cumulative participations by children and young people

1,000+
hours of participation in educational activities

0
employees — everything done by volunteers

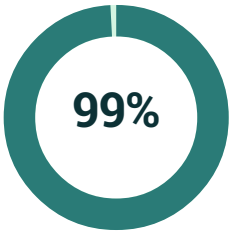

Where the hours went in 2025

Reported hours, minimum values ("+")

Children taking part in educational activities and experiences	1,000+
Preparing activities and events	700+
Hands-on involvement and support from volunteers	200+
One-to-one mentoring and conversations about the future	36+

How resources were used

Of the financial resources used in 2025

99% went directly to activities, materials and experiences for children.

Mentors, trainers and volunteers gave their time and expertise **at no salary cost**.

Note: the number of participations is cumulative and does not represent the number of unique beneficiaries.

EDUCATION AND GUIDANCE

STEADY LEARNING

Our two education programmes met different needs: **steady support with school** and teenagers' access to **real information about careers** and educational choices.

3
hours of educational support per week

5
subjects covered in tutoring

36+
hours of one-to-one mentoring and conversations about the future

2020
the year our educational support began

PROGRAMME

Învăț cu Încredere (Learning with Confidence)

The programme continued the educational support that began in 2020. In autumn 2025, children joined regular online sessions for homework, catching up on lessons and exam preparation.

- Three hours of educational support per week throughout the school year
- Materials adapted to each child's level and needs
- Volunteers who follow progress from one session to the next

Romanian · Foreign languages · Logic · Geography · Arts

PROGRAMME

Career Tomorrow

The programme offered teenagers meetings with professionals, conversations about university and trades, real examples from the job market and room for questions about salaries, responsibilities and the steps different careers require.

- Career and educational guidance meetings
- 36+ hours of one-to-one mentoring and conversations about the future reported for 2025

Gastronomy · IT · Entrepreneurship · Marketing · Arts · and more

HEALTH AND EXPERIENCES

SUPPORT FOR EVERYDAY LIFE

Alongside education, the association created activities through which children received support for **health, personal care** and the ordinary moments of childhood.

20
children received a preventive skin screening

8–18
years, the age of children in the pilot programme

3
creative workshops with partners and volunteers

Dolj
the county where the health programme was piloted

✱ Health, every day

At the start of the school year, 20 children aged 8 to 18 received a preventive skin screening, carried out with the help of volunteer doctors and specialists. A separate activity covered hygiene, personal care and daily routines.

- Early identification of health and care needs
- Clear, accessible explanations about hygiene and prevention
- Follow-up support where specific needs were identified

Age of children in the screening

20 children, aged 8–18

✱ Normality and simple joys

Children received books, school supplies, gifts and help with immediate needs. The association organised birthday parties, recreational activities and the **Wishing Tree**, an initiative through which volunteers and donors made the children's Christmas wishes come true.

✱ Experiences that build connections

Together with partners and volunteers, we organised 3 creative workshops, seasonal activities and meetings through which children discovered new places, professions and people in a safe, friendly setting.

COMMUNITY

PEOPLE WHO GAVE THEIR TIME AND CONTINUITY

Our 2025 work was made possible by volunteers and partners who contributed **time, knowledge, services, products, spaces and logistical support**.

Who made 2025 possible

Volunteer tutors
Regular learning sessions, preparing materials and following progress

Mentors and professionals
Conversations about jobs, studies, the job market and personal choices

Doctors and specialists
Preventive screening, health explanations and care activities

Partners and donors
Books, school supplies, gifts, cakes, services, spaces and logistics

The association team
Coordination, communication, preparation, relationships with beneficiaries and programme continuity

How we work

- **Every child's dignity**
- **Lasting relationships**
- **Responsible use of resources**
- **Transparent results**

Education, health, guidance and life experiences complement one another.

Thank you

> *Thank you to everyone who chose to stand by the children. Every hour, conversation and resource you gave helped our programmes continue into 2026.*

LOOKING AHEAD

PRIORITIES FOR CONSOLIDATION

Our first official year confirmed that the programmes can continue thanks to the community's involvement.

1 Programme continuity

Keeping up the educational support and the steady relationships with the children already taking part.

2 Stable partnerships

Building collaborations that can support activities, materials and experiences every month.

3 Predictable income

Attracting sponsorships and recurring donations, and building a minimum operating reserve.

4 Measuring impact

Separating unique beneficiaries from cumulative participations and tracking programme and volunteer hours consistently.

5 Financial transparency

Aligning internal records with the financial statements and explaining in-kind contributions and volunteer work.

2025 was a year of beginnings and of settling in. The association turned a volunteer initiative into a formal structure, kept its programmes for children going and built its first mechanisms for collaboration and reporting. The next step is to consolidate our resources so that the support we offer children stays constant and can gradually reach more of them.

THANK YOU!

Every hour, conversation and resource you give matters.
